

Double Double - Solution

Faculty: Science

We start by finding the word for each of the clues. Then we arrange these words in rows according to their drink icon, so that as you move from left to right, each drink icon has one more feature added to it. Then we look at each pair of rows and identify the positions which have letters that are the same, then fill in the corresponding circles. Finally, we translate the final answer from Braille to get REFRESHMENT.

The first draft of this puzzle didn't have the drinks; they were added in to tie in to the answer and add another step.
