

# #FollowMeTo - Solution

## Faculty: Arts

We start by finding name of each building. Then we use the number of fingers to find the letter at that index in each building name. Together these twelve letters spell the answer, NEW CALEDONIA.

The inspiration for this puzzle is #FollowMeTo photos, which are photos of people being led to various beautiful places. We thought places on campus would be fun, but in reality, managing the doors, avoiding people, and ensuring the correct number of fingers was clear in each photo was little challenging!
