

# Zero to Hero

From page 0 of *The Encyclopedia Free* comes a tale as old as time itself, faithfully preserved by the Academy of John and Edmund (7). As cries echoed through Melville, she and Mulligan vowed never to let go (3). For it was within this feature that she became Bennet, ego and bias bursting forth (2). Unable to look away, a lone woman watched upon this grand platform—not once, not twice, but 278 times (4)! Quickly, she bridged to this Canadian locale, eager to experience a royal ball (4).

The mighty were housed in this model complex worthy of a World Fair (3). Triumphantly, they Marched and Marched to the top of this poll (4), realizing only then that no triumph is without loss. Woe! It was she who shattered into pieces—nearly 1,700 (5)! Reborn with new skin from their rooftop (3), it was as if the building itself sought to heal its wounds. All the while, waves emitted from its center (2), filling the air with a frequency that seemed almost otherworldly. And there, in the midst of it all, stood he—the drinker of dairy divine (3)—whose heroism has stood the test of time.
